

AFRICAN LION

Panthera leo

Average Weight:

Adult male: 150-250 kg

Adult female: 120-180 kg

Diet:

Carnivorous

Group size:

1:1

Weekly diet

	Mon	Tues	Wed	Thurs	Fri	Sat	Sun	Weekly Total
Zulu	3 kg	STARVE	10 kg	3 kg	STARVE	3 kg	10 kg	29 kg
Wilma	1.5 kg	STARVE	5 kg	1.5 kg	STARVE	1.5 kg	5 kg	14.5 kg

Preparation and delivery:

- Prepare all meat feeds in meat kitchen only.
- Place food in separate yards where possible (right for Zulu, left for Wilma).

Notes:

- Increase feed weights slightly if lots of large bone is present in feed.
- Large bones with very little meat may be given *in addition* to meat feeds or on starve days as enrichment but should not be included in the dietary weight of food.
- Carnivore supplement to be added to food daily, follow supplement guidelines.
- Meat to be taken out of the freezer **two** days in advance and put in fridge to defrost.
